**Importance:** High

Tala and Todd

I think this would be an important venue to showcase the SOT posters – it's free! And AIT is a premier group.

If you agree, I can revise them if you can get them cleared Tala? Would we need to ask all the others again too?

Sorry I have become so behind. Ex. 6 Personal Privacy (PP) and ORD decided to start the next planning phase super early with zero warning. We are all scrambling between end of year deliverable and planning discussions or presentations almost daily.

**Subject:** Call for posters for Association of Inhalation Toxicologists (AIT) 2021

Hello

I hope all is well. Unfortunately the AIT has not been able to hold the usual face to face conference during 2021 due to the current pandemic and various global travel restrictions. Due to the lack of face to face meetings in general at present, the AIT would like to offer you the opportunity to place any posters you may have relating to inhalation toxicology onto the AIT website for our members to view (in a PDF format).

Do you have an interesting piece of work to share in the inhalation toxicology field? If so please contact me to arrange for a PDF copy to be uploaded to the AIT website ([www.aitoxicology.org](http://www.aitoxicology.org)). These will be held in the secure members area of the website for only AIT members to access.

In addition, the AIT are planning some free virtual webinar sessions for October and November time. An announcement for titles, dates and times will be sent out very soon.

If you would like to be taken off of our mailing list please let me know.

Kind regards  
Kay
